

Project Demo Planning

Date	2 July 2026
Team ID	
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Scope	Introduce the Smart Lender project, explain the challenges of traditional loan approval, and present the project objectives.	0.5	Ankitha (Team Lead & Presenter)
2	Solution Overview & System Architecture	Briefly explain the Flask web application, XGBoost machine learning model, frontend interface, and overall workflow.	0.5	Ankitha
3	Live Prediction Demonstration	Demonstrate loan eligibility prediction using an ideal applicant and a high-risk applicant. Explain confidence score, risk band, and prediction results.	1.5	Ankitha
4	Application Features	Showcase form validation, responsive UI, loan burden calculator, dark/light mode, and other key application features.	1	Ankitha
5	Deployment & Conclusion	Demonstrate the deployed application on Render, summarize project benefits, and conclude the demo.	1	Ankitha

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for an automated loan eligibility prediction system.
2	Solution Overview	Introduce the Smart Lender application, Flask framework, and XGBoost machine learning model.
3	Live Demonstration	Showcase loan approval, loan rejection, confidence score, risk band, and form validation using the web application.
4	Deployment & Conclusion	Display the Render-hosted application, summarize the project's key benefits, and conclude the demo.
